

A.E.C.G.- The Song! - Teachers

This is another example of where a few chords by you, can accompany your class beautifully!

- You've already covered some of these chords in 'All Elephants...'
- Try playing these chords using the finger nail on your right hand, first finger, going down through all the strings **firmly!** This will make you sound louder when accompanying the singing of your children.
- Here are the chords...

- Play each chord two times...and repeat!
