# How to Draw a Violin

[www.thebirdfeednyc.com](http://www.thebirdfeednyc.com)

1.

Start by drawing the top part of the violin's body.

2.

Draw the inward slanting waist (c-bouts) of the violin's body.

3.

Now, draw the bottom part of the violin's body.

4.

5.

6.

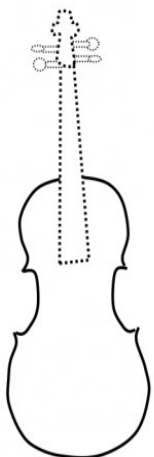

7.

4.

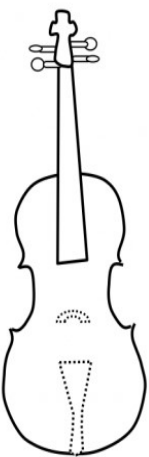

5.

6.

7.

Next, draw the fingerboard/neck, scroll and tuning pegs at the top of the violin.

The next step is drawing the tailpiece at the bottom and the bridge in the middle.

Now, add the chinrest and a sound hole (f-hole) on each side of the bridge!

The last step is drawing four strings: start at the scroll and go all the way to your tailpiece!
