Our Chords...

C C7 F F

2) Next, let's learn to play those chords with a special strumming pattern...

Down, down, down, down, down-up, down-up, down-up, down-up.

This will take a little practise, so take a moment...

3) Now let's try and incorporate some Roy Smeck tricks!

The 'Lift!' - Play the chord of '**C**' 5 times and then lift the ukulele upwards using two hands, quick up and down!

The 'Blow!' - Play the chord of '**C7**' 5 times and lift the ukulele towards your mouth, while flat. Blow across the sound hole, once and HARD! It should make a deep pitched sound like a boat's klaxon?

The 'Slide!' - Play the chord of '**F**' 5 times, then flip the ukulele onto its front and 'slide' the palm of your right hand up the back of the ukulele towards the neck. It should make a 'squeak' type sound?

The 'Flick!' - Play the chord of '**F**' 5 times and then 'flick' the wood of the ukulele below the bridge with your second finger...careful now, it can be a little sore!
